

Special Issue

Entropy, Cosmic Inflation and the Theory of Relativity: In Honour of Prof. Øyvind Grøn

Message from the Guest Editor

It is our pleasure to invite you to contribute to a *Universe* Topical Collection titled "Entropy, Cosmic Inflation and The Theory of Relativity: In Honour of Prof. Øyvind Grøn". The aim is to gather a collection of contributions that relate to the scientific works of Øyvind Grøn. In this Special Issue, we welcome contributions from experts on the following subjects: The asynchronous formulation of relativity; The Ehrenfest paradox and physics in rotating reference frames; The twin paradox; Electrodynamics of radiating charges; Effects of repulsive gravitation such as isotropization of anisotropic universe models; Conformally flat spacetimes; Rotating universe models; Gravitation and entropy; The inflationary era; Inertial dragging; Kaluza Klein theory.

Guest Editor

Prof. Dr. Sigbjørn Hervik

About the Journal

Message from the Editor-in-Chief

The multidisciplinary *Universe* journal is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the editorial board, I extend my welcome to this new journal and look forward to hearing from the interested contributors and learning about their valuable research.

Editor-in-Chief

Prof. Dr. Lorenzo Iorio

Ministero dell'Istruzione e del Merito, Viale Unità di Italia 68, 70125 Bari, BA, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
