

## Special Issue

# Prevention of Human Papillomavirus (HPV) and Vaccination

### Message from the Guest Editors

This Special Issue aims to provide evidence regarding HPV vaccination and screening results and impact in different countries and settings (adolescents, healthy and treated women, men, MSM, etc.). In this Special Issue, original research articles and reviews are welcome on research areas that may include (but are not limited to) the following: HPV genotype distribution in different pathologies according to age and sex, current and future HPV vaccination and screening strategies, efficacy and effectiveness of HPV vaccines in different target populations, measurement of HPV vaccination coverage, HPV vaccination after treatment, vaccine hesitancy, strategies to improve HPV vaccination and screening coverage in different target populations, cost-effectiveness of HPV vaccination and screening, and the use of potentially new and simplified diagnostic tests to evaluate preventive programs' performance. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2024).
