

## Special Issue

# Evaluation and Monitoring of Ecological and Hydrological Status of Rivers and Lakes

### Message from the Guest Editors

Considering the established scientific challenges, we would like to invite scientists involved in hydrological-ecological monitoring research to contribute to this Special Issue, which will focus on the analysis, evaluation, and/or prediction of changes in the functioning of lakes and rivers caused by physical, chemical and biological stressors treated as causal factors, as well as temporal and spatial changes in the level of ecosystem health. Keywords

- monitoring integrity
- ecohealth
- restoration effect monitoring
- natural potential
- modelling approach
- anthropogenic impact
- ecosystem services

---

### Guest Editors

Prof. Dr. Krystian Obolewski

Dr. Natalia Mrozińska

Dr. Monika Szymańska-Walkiewicz

---

### Deadline for manuscript submissions

closed (20 August 2024)

## About the Journal

### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Water Science and Technology)
