

Special Issue

Water Management in Central Asia

Message from the Guest Editors

In this Special Issue, we aim to bring together the scientific community from different disciplines, improving the state-of-the-art understanding of “Transboundary Integrated Water Management in Central Asia”. We seek contributions on the following topics, but not exclusively:

- Review of water-related datasets/models/tools/policy in the region;
- Improving data availability and exchange;
- Modeling applications on water availability, water use, and allocation;
- Scenario analysis on transboundary water management;
- Climate change impact on water resources;
- Water–food–energy–ecology nexus in Central Asia.

Guest Editors

Prof. Dr. Markus Disse

Chair of Hydrology and River Basin Management, School of Engineering and Design, Technical University of Munich (TUM), 80333 Munich, Germany

Dr. Jingshui Huang

About the Journal

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Editor-in-Chief

Dr. Jean-Luc PROBST

Centre de Recherche sur la Biodiversité l'Environnement (CRBE) UMR CNRS/UPS/INPT/IRD, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, Toulouse, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Water Resources) / CiteScore - Q1 (Water Science and Technology)
