

Special Issue

Recent Developments in Practical Demonstrations of V2G Technologies

Message from the Guest Editors

We invite researchers, practitioners, and industry experts to submit their original research and case studies on the latest advancements in Vehicle-to-Grid (V2G) technologies. This Special Issue aims to highlight practical demonstrations and real-world applications that showcase the potential of V2G systems in enhancing grid stability, optimizing energy use, and supporting the integration of renewable energy sources. Topics of interest include, but are not limited to, the following:

- Innovative V2G pilot projects: Detailed case studies and outcomes from recent V2G implementations.
- Optimization techniques: AI-driven algorithms and machine learning methods for improving V2G operations.
- Economic and environmental impacts: Analysis of cost benefits and sustainability contributions of V2G systems.
- Policy and regulatory frameworks: Insights into legislative advancements and challenges in V2G adoption.
- User experience and engagement: Studies on user participation and satisfaction in V2G programs.

Guest Editors

Dr. Mattia Marinelli

Department of Wind and Energy Systems, Technical University of Denmark, 4000 Roskilde, Denmark

Dr. Hugo Morais

INESC-ID, Department of Electrical and Computer Engineering, Instituto Superior Técnico-IST, Universidade de Lisboa, 1049-001 Lisbon, Portugal

Deadline for manuscript submissions

31 March 2025

About the Journal

Message from the Editor-in-Chief

The *World Electric Vehicle Journal* is the official journal of the World Electric Vehicle Association (WEVA) and its members the European Association for Electromobility (AVERE), the Electric Drive Transportation Association (EDTA), and the Electric Vehicle Association of Asia Pacific (EVAAP). Since its foundation in 2007, the journal has aimed to provide a publishing platform for the academic and industrial world to share the latest developments and knowledge about electric vehicles. If you are developing Electric, Plug-in Hybrid, Hybrid Electric, or Fuel Cell Vehicles, we cordially invite you to consider us as the place for you to publish your latest results and innovations.

Editor-in-Chief

Prof. Dr. Joeri Van Mierlo

MOBI–Electromobility Research Centre, Department of Electrical Engineering and Energy Technology, Faculty of Engineering Sciences, Vrije Universiteit Brussel, 1050 Brussel, Belgium

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Transportation Science and Technology) /
CiteScore - Q2 (Automotive Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2024).
